

Help! Asylees in NYC Need Safe & Compassionate Shelters

Will You Open Your Doors For This Humanitarian Crisis?

Asylum Seeker Shelter-19 Beds Site

Over 130,000 Asylum Seekers have come to NYC seeking help – hundreds more arrive every day. Over 70,000 are now sheltered in NYC sites. This straining our city's resources to the breaking point. NYDIS has been opening shelters in houses of worship since August. These small faith-based shelters are preferred by migrants because of the kindness, safety and compassionate care they receive – and, our shelters cost tax payers significantly less than hotels and mass shelters. Our current guests are overwhelmingly from South America and West Africa.

Serving the poor and marginalized is an obligation of all faith traditions. To reach our initial goal of opening 50 shelters. We are seeking a minimum of 20 more houses of worship or faith-based organizations to shelter **19 single adult men from 7PM to 7AM over the next 12-24 months** – and, we advance **\$50,000 each month to cover all direct costs and space use**. NYDIS also provides training, shelter supplies and regular operational support onsite.

Help us Save Lives and offer your Hospitality!
